## Is There A Developer Shortage? Yes, But The Problem Is ...

Web Jun 8, 2021 · According to U.S. Labor statistics, as of December 2020, the global talent **shortage** amounted to 40 million skilled workers worldwide. By 2030, the global talent **shortage** is expected to reach...

**Author:** Tigran Sloyan

EXPLORE FURTHER

I'm so sick of **hearing about a "programmer shortage"** in the US.

Developer Deficit

General Purpose

Browser UX

# Low-Code

From Wikipedia, the free encyclopedia

In [computer software](#), a **general-purpose programming language (GPL)** is a [programming language](#) for building [software](#) in a wide variety of application [domains](#). Conversely, a [domain-specific programming language](#) (DSL) is used within a specific area. For example, [Python](#) is a GPL, while [SQL](#) is a DSL for [querying relational databases](#).

## Visual Studio Code for the Web

 Edit

Visual Studio Code for the Web provides a free, zero-install Microsoft Visual Studio Code experience running entirely in your browser, allowing you to quickly and safely browse source code repositories and make lightweight code changes. To get started, go to <https://vscode.dev> in your browser.

VS Code for the Web has many of the features of VS Code Desktop that you love, including search and syntax highlighting while browsing and editing, along with extension support to work on your codebase and make simpler edits. In addition to opening repositories, forks, and pull requests from source control providers like GitHub and Azure Repos, you can also work with code that is stored on your local machine.

VS Code for the Web runs entirely in your web browser, so there are certain limitations compared to the desktop experience, which you can read more about [below](#).

## Actions

 Expand table

<a href="#">Add a new row</a>	This action allows you to add a new row in the selected Microsoft Dataverse table. This connector was formerly known as Common Data Service (current environment).
<a href="#">Add a new row to selected environment</a>	Create a new row in a table in a Power Platform environment.
<a href="#">Delete a row</a>	This action allows you to delete a row from a Microsoft Dataverse table. This connector was formerly known as Common Data Service (current environment).

# Security

Microsoft Power Platform is cloud-based software as a service (SaaS) solution that is available from within a Microsoft Entra ID tenant. Microsoft Power Platform is licensed through Microsoft 365 and secured by Microsoft Entra ID. Microsoft Power Platform runs on Microsoft Azure; therefore, it's highly scalable and available globally.
